

**Private Well System Application
Connection to
City of Branson Sewer**

Name: _____

Address: _____

Telephone #: _____ **Work #:** _____

Sewer Billing Address: _____

Meter Location: _____

Contractor/Plumber Name & Phone: _____

Contractor/Owner Sewer Bond on File: YES ____ NO ____ (check one)

If answered No, Contractor or owner must put up a bond of \$500.00 before a satisfactory Sewer Inspection Report can be issued.

Customer must pay for all costs for connection to City sewer and all Permit and sewer capacity fees, before connection is made.

Connections must be completed in accordance with the International Plumbing code and all City specifications.

Customer must pay for a meter approved by the City. The meter must be installed on the supply line in a pit outside of the home or facility and meet the City's Specifications. The water meter must be installed and approved before a sewer connection permit can be issued.

Customer will read meter each month and send the reading to the Dept of Finance with the City of Branson between the 15th and 20th day of the month.

Customer is also responsible for maintaining the meter in good working order. The City shall have the right to inspect the meter and verify accuracy of the meter.

The customer must follow City ordinance in regards to payment of sewer bill. If the account becomes delinquent, the City has the right to lock or pull the meter or disconnect the sewer line.

I hereby agree to all of the above and understand what my responsibilities are in order to receive a sewer connection permit. This agreement applies to the current property owner and any future assignees.
